

BOND REPOSITORY OF COLLECTIVE ACTION

UK: Land Workers Alliance

The aim of the BOND Repository is to share real-life solutions of farmers' and land managers' capacity to develop collective activities and participate in networks involving a wide range of actors. The Repository contains 20 in-depth case studies emerging from the BOND Project, and in addition provides a store-and-share for other initiatives and projects to upload their success stories on an on-going basis.

The Repository is based on EU 'Practice Abstracts' that provide a common format to characterise a project. This makes it possible for readers to contact the project partners and enables the dissemination of project results.

The language is English apart from the project title and abstract.

This Table aims to provide basic information about the organisation or initiative as a whole.

Title (in native language)	Land Workers Alliance
Title (in English)	
Editor's name and contact details (address, telephone, email)	Julia Wright Centre for Agroecology, Water and Resilience, Coventry University, UK j.wright@coventry.ac.uk
Coordinator name and contact details.	Deirdre Butterly, Membership Coordinator c/o Monkton Wyld Court Elsdon's Lane Monkton Wyld Nr Charmouth Dorset, DT6 6DQ info@landworkersalliance.org.uk
Partners' names and contact details	La Via Campesina https://viacampesina.org/en/
Start date	2013
Main sectors/focus	Training, campaigning, solidarity and media
Type of organisation (eg coop, network)	Union
Number of members	971 as of May 2018
Type of members	Farmers, growers and land-based workers
Operating level (local, regional, national etc)	Regional, National, international

PRACTICE ABSTRACT 1

This summary should be as interesting as possible for farmers and other practitioners, using easy understandable language.

(Please repeat this template for each project or subproject that you would like to record)

Short title in English	Land Workers Alliance
<p>Short summary for practitioners in English on the (final or expected) outcomes (1000-1500 characters, word count – no spaces). This summary should at least contain the following information:</p> <ul style="list-style-type: none"> – Main results/outcomes of the activity (expected or final) Include successes such as impact (on policy/productivity/land management etc), effectiveness (have objectives been achieved?), sustainability (economic and environmental), and transferability (can it be adapted and adopted elsewhere?) – The main practical recommendation(s): including both entrepreneurial elements related to cost, productivity etc as well as how any challenges have been overcome. 	<p>The Landworkers' Alliance (LWA) is a grassroots union of farmers, growers and land-based workers which grew out of the momentum and the spirit of the UK's first Food Sovereignty Conference in 2012. It is a member-led union and is affiliated with La Via Campesina. Growing from 12 to 900 producer members over 5 years, the association brings people together in solidarity, shares knowledge, brings more people into farming, undertakes political advocacy using a collective voice, and ensure there is always dancing at gatherings!</p> <p>It is truly farmer-led: policies need to come from members' own experiences, and the LWA only employs farmers as staff (currently 3 p/t employees). The association has created concrete proposals to government such as the People's Food Policy in the lead up to Brexit, and now politicians are interested (because LWA small farmers are surviving without subsidies ie on the free market) and the politicians have been taken on study tours to visit farmers and customers. The LWA has an impact because the members are passionate, they bring a new energy into farming, and comprise a lot of young people who use social media. The association targets its communications to the individual people holding power, studying their backgrounds to ensure the messages appeal to them. It also devolves by giving training to regional groups so that the LWA has a vocal presence at regional level as well as national.</p>
